

COVID-19 Tablet/Stylus Care

- Patients and/or caregivers should have limited contact with your tablet/stylus during this time
 - Electronic consents:
 - Read each section to the patient/caregiver
 - Have patient/caregiver sign your tablet to give consent
 - Immediately clean your tablet/stylus with alcohol wipe and allow to air dry before proceeding with visit
 - End of visit signatures:
 - Choose “No Signature - COVID-19” when you are prompted for Signature Type
 - This will be a new option enabled after you refresh
 - New option will appear in patient signature section at the end of a visit
 - In the note box that pops up, type: “Due to infection control process at this time, patient verbally agreed to visit”
- Tablet/stylus must be cleaned with alcohol wipe and allowed to air dry after each patient contact and at end of visit
